

Covered. Connected. ASCP.

Carol started as a master cosmetologist and moved into the spa industry as the esthetics field evolved. She also practices bodywork and is interested in nutrition and holistic health.

With her Associated Skin Care Professionals (ASCP) membership, Carol can take advantage of liability coverage for both her esthetic and massage work. "I wouldn't practice without liability insurance," she says.

Carol's also developed another area of expertise: teaching. In fact, she's become director of education at an Atlanta school. "It's thrilling to watch students become passionate about their future," she says.

Carol stays connected with her profession through ASCP and loves to connect "heart to heart" with her clients and students.
